

OPSIAL®

AIR'PRO INTEGRA A2P3 half-mask with integrated goggles

P702LFT

A2P3

441g

APPLICATION

Protective goggles against impacts, dust and liquid aerosols

Protection A2 against pesticides, paints and solvents

Protection P3 against highly-toxic particles and toxic solid and/or liquid aerosols: dusts from chromium, cobalt, lead, cadmium, hardwoods (oak, beech), asbestos (low concentration), silica, granite, ceramic fibres, legionella (short duration).

BONUS

Compact, lightweight and comfortable
Unique patented filter technology: highly improved breathing
Filters out 99.95 % of dust (mean diameter 0.3 microns)

Main features

Materials:

- Mask: Medical grade TPE in compliance with ISO 10993-10: 2010 relative to irritation. Latex and silicone free, odourless mask body. Nylon valve, Inhalation/Exhalation silicone diaphragm.
- Gas filters: Activated carbon filters in an ABS shell
- Particulate filters: mechanical HESPA-type synthetic filtering media with moulded TPE insert. Particulate filters are coupled with the active carbon element.
- 4-point adjustable elastic head and neck strap with TPE pad for comfort.
- Goggles: Polycarbonate with anti-fog coating over-moulded in flexible TPE, permanently attached to the mask body.

Shelf life: 3 years

Size	SKU number
M/L	65 774 658
S/M	65 774 666 (not on stock)

Description

- Compact, lightweight and comfortable A2P3 reusable half-mask
- Hugs the face
- **Integrated goggles:** protect eyes and prevent fogging
- Air flow diffusion system inside the filter for full use of the activated carbon
- **Exceptional breathing comfort:**
 - Patented pleated encapsulation technology for a larger filtration surface area
 - The synthetic HESPA® material uses mechanical filtration, giving greater comfort than electrostatic filtration used in disposable masks
 - Large central exhalation valve, highly effective for evacuating CO2 and heat
- Supplied with integrated replaceable filters
- **A special carry case is also available for this mask (P702KW2)**
- **Peel off visors protecting the integrated goggles available by bag of 10 (P702KW1)**

Standards

- Half-mask in compliance with EN 140: 1998
- Filters in compliance with standard EN 14387: 2004 + A1: 2008 A2P3 RD
- Goggles in compliance with standard EN 166: 2001
- Marking: GVS 2 F.K.N - EN166 3.F

Packaging

- Single unit box
- Box of 4 masks

Available in others versions
